ABOUT US

PT. UNIMITRA CHEMINDO JAYA is chemical materials distributor and applicator company for construction needs. This company established in 2016, started from our experience and reputation in construction industry with nationwide projects, both in public and private sector.

At this young age, **PT. UNIMITRA CHEMINDO JAYA** introduces variety of protective coating materials for construction, including: spray polyurea system, floor hardening, anti-static coating, heat reducing coating, and steel

coating. Our company also offers variety of insulation foam (Spray Polyurethane Foam - SPF) for thermal and noise insulation, with materials from reputable word-class manufacturers.

With our experienced chemical engineering team, professional supervision team, and trained installation staffs, we always prioritize safety and quality in every project. Because we believe, every house and building is a valuable asset for its owner.

OUR PHILOSOPHY AND VALUES

OUR GOAL is to build the nation with commitment and excellent services.

CUSTOMER ARE OUR LIFETIME PARTNERS

We gain trust from our partners by continuously providing high quality products and excellent services that exceed their expectations.

PEOPLE ARE OUR QUALITY

We believe that our quality come from our qualified people. Based on shared experiences, mutual values, and trust, we build our solid teamwork to deliver outstanding services
